PRP MASTER - May 6 PM SV edits.docx

Hi Doug/Heather,

My apologies for bothering you again while you're out of the office but I gather there is still some feedback required from the US side on this report. I think the deadline is actually today if either of you are able to either respond to comments. I think we're all good from the ECCC side.

Also with respect to my earlier email I just wanted to discuss if we had speaking notes/slides ready to go for GLEC and if not who would take lead on that front?

Cheers and apologies for any confusion,

Patrick

Just a reminder that today COB is the deadline for providing edits and responding to questions in the PRP. At this time, we are still waiting for feedback from Annex 9 and Annex 10.

The most current version of the PRP is attached.

Thanks!
